

## Industry Veteran Laura LiVecchi Joins InOutsource

FOR IMMEDIATE RELEASE

**Thorofare, NJ – January 2, 2008** –InOutsource, a leading provider of records retention and information management consulting to law firms, announced today that industry veteran Laura LiVecchi has joined the firm as a senior project manager. In this role, she will work directly with clients to execute on their records management policies and implement their information management technologies.

“We are pleased Laura has joined our growing team. Her skills and experience will serve our clients well,” said Nancy Beauchemin, founder and president of InOutsource.

Before joining InOutsource, LiVecchi was a project manager at Fox Rothschild LLP, a 400-attorney, full-service law firm based in Philadelphia. While there, she managed the budget, operations, resource management, analysis and implementation of enterprise-wide systems. She is a member of the Project Management Institute (PMI) and served as the Philadelphia Volunteer City Representative for the International Legal Technology Association (ILTA) in 2007.

“We are committed to provide our clients with the best possible solutions to their ongoing records management and information management challenges,” Beauchemin said. “Part of that commitment is to have only the very best professionals as part of our team.” Other experts within the firm include Certified Records Managers, technology specialists and former law firm project managers.

InOutsource experts provide records management consulting and project management services to help law firms and corporate legal departments ensure information is properly retained and protected to mitigate risk, and preserve client confidentiality. The firm provides consultation and support for: analysis of a firm’s current systems, processes and staff; the development of retention policies and procedures that are legally compliant and fit the unique needs of a firm; and implementation of conflicts, workflow, docketing, document and records management systems.
